# Your AI, Cloud & Cybersecurity Solutions at Lightning Speed

✓ Global Certified Cloud Partner

✓ **1000+** deployment accomplishments

✓ **600+** Traditional & Digital Native Customers

Zazmic   Google Cloud

About Our Company

We specializes in providing comprehensive solutions for development, operations, cloud infrastructure, and security challenges. We enable organizations to streamline their IT operations, enhance efficiency, and achieve their business objectives.

- Proven Expertise
- Tailored Solution
- Cutting-Edge Technology
- Comprehensive Support

Zazmic

- ✓ **Infrastructure Experts**
- ✓ **Seamless Migrations**
- ✓ **Hybrid Cloud Specialists**
- ✓ **World-Class AI Engineers**

Zazmic

Global Delivery Team

1000+ Projects Completed

120+ Migrations Completed

20 Employees Worldwide

With a foundation rooted in the entrepreneurial spirit of Silicon Valley, Zazmic has evolved into a Global trustedpartner for businesses of all sizes, delivering cutting-edge solutions across web, mobile, and cloud technologies.

Zazmic

AI Workshops & POC's

E-commerce:
Item identification from videos/photos.

Zazmic
About
Our Services

Zazmic

Cloud Engineering

Maximize your cloud potential. Our certified experts guide your cloud migration,optimization, and digital transformation,ensuring cost control, performance, and efficiency. We review your infrastructure and architecture for scalability and future success.

Zazmic

AI and GenAI

Outrun the competition with innovative AI and GenAI technologies. Automate tasks, enhance productivity, boost customer satisfaction, and make data-driven decisions to achieve your goals faster and stay ahead in the market.

Zazmic
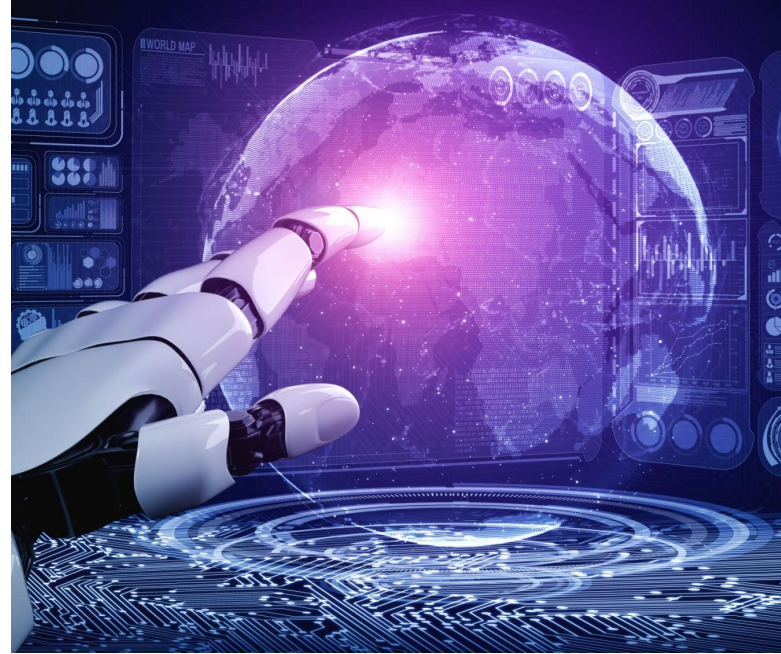

Software Development

Become a leader in your niche with top-quality software solutions.
Our deep tech expertise,combined with agile methodologies,
allows us to create custom scalable applications that streamline
processes, attract clients, andboost ROI.

Zazmic

Cybersecurity

Protect your business from growing security risks. Our AI-driven cybersecurity solutions proactively identify and neutralize threats before they impact your operations,preventing data loss and disruptions and ensuring business continuity.

Zazmic

Cloud Engineering

Seamless Cloud Transformation:

Empowering Your Business with Zazmic

Cloud Engineering

We specialize in cloud architecture,helping businesses leverage its agility,scalability, and innovation. Our reviews and planning ensure your architecture is future-proofed for success.

Why Cloud?

01

Drive Innovation:

Cloud-native apps, AI/ML insights, new revenue streams,enhanced customer experiences.

02

Boost Agility & Efficiency:

Reduced IT costs,increased team focus, improved operations, enhanced scalability.

03

Enhance Business Continuity:

Robust disaster recovery, minimized downtime, maximized uptime.

Dedicated Migration Team

Minimize Risk

Reduce downtime and data loss with our rigorous testing.

Accelerate Timelines

Fast, efficient migrations with proven methodologies.

Expert Guidance

Certified specialists ensure a smooth transition.

Enhanced Security

Protect your data with our focus on security.

Tailored Solutions

We adapt to your unique needs and timelines.

Zazmic

AI & GEN AI

AI: Driving innovation & Transforming businesses.

Generative AI:

```
                        ┌─────────────────────┐
                        │   Generative AI:    │
                        └─────────────────────┘
```

Generative AI:

Customer:
24/7 support,
sentiment,
personalization.

Sales & Marketing:
Lead scoring, ads, AI
content.

Operations:
Automation, predictive,
optimized.

Doc AI:
Automated
processing,
extraction, analysis.

Finance:
Fraud, risk,
forecasting.

HR:
Hiring, training,
engagement.

Cybersecurity:
Threat, anomaly,
response.

Smart Search:
Enhanced search,
retrieval.

Zazmic

AI & ML:

Hyper-Personalized:

Tailored interactions, product recommendations.

Predictive Insights:

Forecast trends, anticipate risks, optimize decisions.

Automated Efficiency:

Streamline operations,reduce manual tasks, boost productivity.

Higher Code Quality:

AI produces cleaner, more reliable, secure code.

Competitive Advantage:

Gain an edge with AI/ML.

Data-Driven Innovation:

Unlock hidden patterns, drive new products/services.

Faster Development:

AI speeds up development, addresses bugs quickly.

Zazmic

Software Development Services

Your applications, our experts, your way!

Why Outsource?

We source top global talent, optimizing for cost, timezone, and expertise to meet your specific needs.

- ✓ Cost Savings
- ✓ Increased Efficiency
- ✓ Access to expertise
- ✓ Increased Flexibility
- ✓ Improved road map delivery

PROFESSIONAL SERVICES

On-time, on-budget application development for your success.

MANAGED SERVICES

Experience the peace of mind that comes with managed cloud.

STAFF AUGMENTATION

Designed for your budget & seamlessly integrated to Existing IT team.

Zazmic

Cybersecurity

Minimize Risk, Maximize Security!

Cybersecurity statistics indicate that there are 2,200 cyber attacks per day, with a cyber attack happening every 39 seconds on average. In the US, a data breach costs an average of $4.8M.

Mandiant

Chronicle

Zazmic's Proven Security Capabilities

01
Data Protection & DLP:

Safeguard sensitive data, protect reputation, and maintain customer trust.

02
Business Continuity:

Minimize downtime and ensure business operations continue smoothly.

03
Financial Gains:

Prevent financial losses from cyberattacks and fraud.

04
Legal Compliance:

Ensure compliance with data protection regulations.

05
