

Your AI-First Engineering Partner

Stop paying for developer busywork.
Start paying for outcomes.

AI-Augmented Dev Teams =
Competitive Edge

**Cut costs 30% &
ship 3x faster**

AI saves us hours of grunt work (legacy code, refactoring, testing, docs) — you save money.

**Less overhead,
more impact**

2 senior AI-powered engineers at Zazmic deliver what others need 7 to do.

**Zero compromise
on quality**

Every AI line is architect-reviewed, tested, and production-ready.

Real Customer Impact:

4 Months

6 Weeks

Using Gemini-powered LLMs, we modernized a U.S. media company's 10-year legacy system in 6 weeks (vs. 4 months), decoding architecture, running tests, and migrating ~70% of routine code automatically.

Ready to ship in weeks, not months?
